

Technical drawing of a roof plan for a symmetrical building. The roof is red-tiled and features two chimneys. The plan shows a central section with a width of 1740, divided into two equal parts of 870 by a central vertical line. The drawing includes a grid pattern for the roof and a break symbol at the bottom center.

Architectural elevation drawing of a building facade showing a red-tiled roof. The drawing includes dimensions for the roof segments:

- 240
- 738
- 1740
- 107
- 655
