

[illegible]

Technical drawing of a staircase showing dimensions and reinforcement details. The drawing includes the following information:

- Overall Dimensions:**
 - Horizontal span: $300 \times 9 = 2700$
 - Vertical rise: $150 \times 10 = 1500$
- Reinforcement Details:**
 - Top reinforcement: $\Phi 6A-13.200$
 - Bottom reinforcement: $\Phi 6A-13.250$
- Other Dimensions:**
 - Stair width: 100
 - Stair depth: 5
 - Stair height: 6

The drawing shows a stepped profile with the following dimensions and features:

- Horizontal Dimensions (Top):** 200, 100, and a section line labeled "2 - 2".
- Horizontal Dimensions (Bottom):** 300, 3150, 1200, 800, and a total dimension of 5150.
- Vertical Dimensions (Right):** 200, 850, 600, 550, and a total height of 2200.
- Section Lines:** Two vertical section lines labeled "2" are shown, one on the left and one on the right.
- Reference Points:** 0.35 and -1.85 are indicated on the right side.
